Condensed notes to the consolidated interim financial statements

Interim period financial disclosures are unaudited and presented in U.S. dollars unless otherwise noted

1. Organization and description of business

St. Augustine Gold and Copper Limited (“SAGC” or the “Company”) was originally incorporated as Ratel Gold Limited (“Ratel”), a British Virgin Islands corporation. The Company’s name was changed following a recapitalization completed during 2011. The address of SAGC’s corporate office is 601 West Main Avenue, Suite 600, Spokane, Washington 99201. The registered address of the Company in the British Virgin Islands is Jayla Place, Wickham’s Cay 1, Road Town, Tortola VG 1110, British Virgin Islands.

The Company has earned no revenues since its recapitalization in 2011 and is currently focusing its efforts on the acquisition, development and exploration of mineral properties. The Company and Nationwide Development Corporation (“NADECOR”), a Philippine corporation, entered into a Letter of Understanding dated November 10, 2009, and executed a Memorandum of Understanding (“MOU”) on April 27, 2010. Under these agreements, subsequent amendments and related agreements, the Company became responsible for providing technical assistance for operations and acquired the right to earn-in an aggregate 60% equity position in the King-king Joint Venture envisioned in the MOU. The earn-in is based on expenditures made to benefit the King-king copper gold project (the “Project”) as well as direct payments to NADECOR. The Project is a copper-gold mineral resource located at Sitio Gumayan, Barangay King-king, Municipality of Pantukan, Province of Compostela Valley, on Mindanao Island, Philippines. Several years of exploration, including drilling and baseline studies were completed by various parties.

The Company is dependent upon its ability to obtain additional financing to complete a Bankable Feasibility Study (“BFS”), develop the mine site, and fund operations. While the Company has been successful in raising funds in the past, there is no assurance that it will be able to do so in the future.

These condensed consolidated interim financial statements (“Financial Statements”) were authorized for issue by the Board of Directors on August 9, 2012.

2. Significant accounting policies

(a) Statement of compliance

These Financial Statements, including comparatives, have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (“IASB”) effective for the Company’s reporting period ending December 31, 2012. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the Company’s consolidated financial statements for the year ended December 31, 2011. Accordingly, accounting policies applied are the same as those applied in the Company’s annual financial statements which are filed under the Company’s profile on SEDAR at www.sedar.com. No policies have changed from prior annual financial statements the policies are described below.

The Financial Statements are prepared as at and for the six months ended June 30, 2012, which is part of the period to be covered by the Company’s annual financial statements for the year ending December 31, 2012.

(b) Basis of presentation

The Financial Statements have been prepared using historical costs and fair values of certain items. Items measured at fair value include cash held in foreign currencies, warrant liability and share-based payments.

(c) Basis of consolidation

These Financial Statements include the accounts of the Company and its subsidiaries. Intercompany balances and transactions are eliminated on consolidation. The acquisition method of accounting is used to account for acquisitions of companies and assets that meet the definition of a business under International Financial Reporting Standards (“IFRS”). The cost of an acquisition is measured as the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the acquisition date. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

St. Augustine Gold and Copper Limited

Condensed notes to the consolidated interim financial statements

Interim period financial disclosures are unaudited and presented in U.S. dollars unless otherwise noted

(d) Significant accounting estimates, judgments and assumptions

The preparation of these Financial Statements requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities and expenses. Management uses historical experience and other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions.

(e) Recent accounting pronouncements

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or International Financial Reporting Issues Committee that are mandatory for accounting periods beginning after January 1, 2012 or later periods. The standards impacted that are applicable to the Company are as follows:

- IFRS 7 – *Financial Instruments Disclosures* requires adoption of amendments for annual periods beginning January 1, 2013.
- IFRS 9 - *Financial Instruments* was issued as the first step in its project to replace IAS 39 - *Financial Instruments: Recognition and Measurement*. IFRS 9 introduces new requirements for classifying and measuring financial assets that must be applied starting January 1, 2015, with early adoption permitted. The IASB intends to expand IFRS 9 during the intervening period to add new requirements for classifying and measuring financial liabilities, de-recognition of financial instruments, impairment and hedge accounting.
- IFRS 10 - *Consolidated Financial Statements* will supersede the consolidation requirements in SIC-12 - *Consolidation – Special Purpose Entities* and IAS 27 - *Consolidated and Separate Financial Statements* effective for annual periods beginning on or after January 1, 2013, with early application permitted. IFRS 10 builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard also provides additional guidance to assist in the determination of control where this is difficult to assess.
- IFRS 11 - *Joint Arrangements* will supersede the existing standard IAS 31 - *Joint Ventures* effective for annual period beginning on or after January 1, 2013, with early application permitted. IFRS 11 provides for the accounting of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form (as is currently the case). The standard also eliminates the option to account for jointly controlled entities using the proportionate consolidation method.
- IFRS 12 - *Disclosure of Interests in Other Entities* is a comprehensive standard on disclosure requirements for all forms of interests in other entities, including subsidiaries, joint arrangements, associates and unconsolidated structured entities. IFRS 12 is effective for annual periods beginning on or after January 1, 2013, with earlier application permitted.
- IFRS 13 - *Fair Value Measurement* sets out in a single IFRS a framework for measuring fair value. IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This definition of fair value emphasizes that fair value is a market-based measurement, not an entity-specific measurement. In addition, IFRS 13 also requires specific disclosures about fair value measurement. IFRS 13 is effective for annual periods beginning on or after January 1, 2013, with earlier application permitted.
- IAS 27 – *Consolidation and Separate Financial Statements* is required to be adopted for periods beginning January 1, 2013. IAS 27 applies in the preparation and presentation of consolidated financial statements for a group of entities under the control of a parent and in accounting for investments in subsidiaries, jointly controlled entities, and associates when an entity presents separate financial statements.
- IAS 28 - *Investments in Associates and Joint Ventures* is effective for annual periods beginning on or after January 1, 2013, with early adoption permitted. Amendments to IAS 28 provide additional guidance

St. Augustine Gold and Copper Limited

applicable to accounting for interests in joint ventures or associates when a portion of an interest is classified as held for sale or when an entity ceases to have joint control or significant influence over an associate or joint venture. When joint control or significant influence over an associate or joint venture ceases, the entity will no longer be required to re-measure the investment at that date. When a portion of an interest in a joint venture or associate is classified as held for sale, the portion not classified as held for sale shall be accounted for using the equity method of accounting until the sale is completed at which time the interest is reassessed for prospective accounting treatment.

- IAS 32 - *Financial Instruments Offsetting Financial Assets and Financial Liabilities*. The amendment provides further clarification on the application of the offsetting requirements. The Company will start the application of IAS 32 in the financial statements effective January 1, 2014.

3. Notes receivable

The Company holds notes receivable from former employees of the Company (under prior management), which were exchanged for 2 million shares in the Company. The notes are denominated in Canadian dollars and are reported at the translated U.S. dollar amount of \$875,466 (2011 - \$882,360). The notes are payable to the Company upon the earlier of the sale of the shares by the debtor or December 31, 2015.

There were no indicators of impairment identified and no impairment loss recognized during the period ended June 30, 2012, with respect to property and equipment.

5. Investment in mining property

Under the terms of the MOU, the Company can earn up to an aggregate 60% interest in the Project by achieving milestones, expending funds for a BFS and capital expenditures ("CapEx") expenses and making direct payments to NADECOR. The expenditure requirements are summarized as follows:

St. Augustine Gold and Copper Limited

\$ 83,000,000		60.00%

- i. Direct payment to NADECOR made in 2009;
- ii. \$3,000,000 was paid in 2010. The remaining \$100,000 was paid during the three months ended June 30, 2012;
- iii. Direct project expenditures made by the Company pursuant to the Preferred Shares Investment Agreement ("PSIA"). The full amount has been expended;
- iv. Direct project expenditures after the fulfillment of the \$30,000,000 required to be expended under the PSIA, expected to be completed in 2012 or early 2013;
- v. The timing of direct payments to NADECOR is contingent on events contemplated in the MOU. \$981,000 was paid during the third quarter of 2011 pursuant to the third amendment to the MOU, and the balance is expected to be paid in 2012 or early 2013; and
- vi. Total capital expenditures based on planned mine throughput. The minimum commitment is \$32,000,000 and is subject to adjustment depending on the planned throughput of the mine.

The Company has committed to spend \$43,500,000 to complete a BFS for the Project, for which the Company earns a 45% interest in the Project. An additional 6% can be earned through interim payments to NADECOR and an additional 9% can be earned by funding a minimum of \$32,000,000 in capital development expenditures, subject to adjustment according to outcomes contemplated in the MOU. To earn the full 60% interest in the Project, the Company will spend, or pay to NADECOR, a total of \$83,000,000, as outlined by the agreement summarized above and subject to adjustments for outcomes contemplated in the MOU. The Company also incurs costs related to the project which do not qualify for progress towards the earn-in.

The following table summarizes the primary categories of accumulated earn-in expenditures as of June 30, 2012 and December 31, 2011:

Category	Acquisition payments to			June 30, 2012	December 31, 2011
	BFS	CapEx	NADECOR		
Project expenditures	\$ 33,900,270	\$ 18,281,424	\$ 1,481,000	\$ 53,662,694	\$ 41,622,987
Benguet settlement expenditures	-	20,754,473	3,000,000	23,754,473	23,183,344
Total	\$ 33,900,270	\$ 39,035,897	\$ 4,481,000	\$ 77,417,167	\$ 64,806,331

The Community Relations and Security Agreement and the Joint Venture Coordinating Committee Agreement, both executed in 2011, expired during the three months ended March 31, 2012. The agreements ended pursuant to termination clauses in the agreements triggered by the Company's fulfillment of planned CapEx expenditures.

In January 2012, the Company and NADECOR executed an agreement (the "Subscription Agreement") which will result in the issuance of joint venture equity to the Company based on qualified expenditures. The Subscription Agreement will cause the Company to own a percentage of the issued and outstanding equity of King-king Gold and Copper Mines, Inc., the joint venture which will hold the Mineral Production Sharing Agreement ("MPSA.")

Condensed notes to the consolidated interim financial statements

Interim period financial disclosures are unaudited and presented in U.S. dollars unless otherwise noted

Benguet settlement expenditures refers to the costs of causing a former Project interest holder to relinquish its rights, the details of which are in the Company's annual financial statements for the year ended December 31, 2011.

A reconciliation of the progress made towards the earn-in to the amounts invested in mining properties included on the accompanying statements of financial position is as follows:

Reconciliation of Investment in mining property to earn-in	June 30, 2012	December 31, 2011
Investment in mining property	\$ 75,924,345	\$ 64,651,019
Depreciable property (earn-in in full on purchase)	780,386	866,423
Qualifying fundraising costs	1,670,625	1,670,625
Interest earned on Nadecor advances	681,378	-
Disallowed/reserved expenditures	(1,639,567)	(2,381,736)
Earn-in balance (i)	\$ 77,417,167	\$ 64,806,331

- i. Pursuant to MOU terms, NADECOR has a right to audit all expenditures reported by the Company towards earn-in. NADECOR has elected to audit all expenditures through June 30, 2012. Approximately \$29,800,000 of the amount at (i) in the above table was approved for earn-in as of March 31, 2012, and an additional \$19,200,000 was approved for earn-in subsequent to March 31, 2012 by NADECOR. Approximately \$28,400,000 is currently under audit or within NADECOR's right to audit.

6. Related party transactions

Certain key management personnel, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities.

The following related parties transacted with the Company in the reporting period of these Financial Statements. The terms and conditions of the transactions with key management personnel and their related parties are made at terms equivalent to those that prevail on similar transactions to non-key management personnel related entities at an arm's length basis.

- i. Norton Rose Canada LLP acts as the Company's securities counsel and the partner of the account is also the Corporate Secretary.
- ii. Russell Mining and Minerals, Inc. ("RMMI"), the Company's largest shareholder, is party to several of the Company's agreements and has key managers common with the Company.
- iii. These companies receive accounting and clerical support from the Company's staff. Josephine Mining Corp. and Russell Mining and Minerals, Inc. have directors in common with the Company, and share corporate headquarters. The aforementioned entities and the Company reimburse RMMI for office rent and other general and administrative expenses and all entities advance certain shared expense payments to one another for administrative convenience.

(c) Advances to related party

The Company has advanced the U.S. dollar equivalent of \$720,871 to King-King Gold and Copper Mines Inc., which is the joint venture company established to hold the rights to the Project.

7. Warrant liability

Warrants issued during 2011 were deemed a derivative liability under IAS 32 because they are exercisable in Canadian dollars while the Company's functional currency is the U.S. dollar. The warrants are therefore required to be fair valued at each reporting date. At June 30, 2012, the fair value of the warrant liability was zero, a decrease of \$316,267 from December 31, 2011. The assumptions used to value the liability at June 30, 2012, were as follows:

Black Scholes assumptions - valuation of derivative warrant liability at June 30, 2012	
Risk free interest rate (i)	0.97%
Expected volatility (ii)	76%
Expected life, years (iii)	0.38
Exercise price (\$CDN)	0.75
Expected dividend yield (iv)	0%

- i. Based on the Bank of Canada's published bond yields.
- ii. Based on the volatility of 5 peer companies with similar equity structures.
- iii. Based on contractual terms
- iv. Based on management's expectation over the remaining term of the warrants.

All 14,737,500 warrants underlying the derivative warrant liability remained outstanding and exercisable at June 30, 2012 and expire November 17, 2012.

8. Shareholders' equity*(a) Share capital*

There was no share issuances during the six months ended June 30, 2012.

(b) Share option reserves

The issued and outstanding options as at June 30, 2012, were as follows:

	Number of options	Weighted average exercise price	Share option reserves
Balance at January 1, 2012	16,958,333	\$ 1.16	\$ 6,701,148
Share options granted to officers, directors and employees	5,625,000	0.49	1,566,436

Options exercisable at June 30, 2012	11,283,332	\$ 1.18	\$ 5,645,563

The fair value of options granted during the period ended June 30, 2012, were estimated using the Black-Scholes option pricing model. The assumptions in the table below are based on the average of all grants issued during this time period and are as follows:

Black Scholes assumptions - share options issued during the six months ended June 30, 2012

Risk free interest rate (i)	1.28%
Expected volatility (ii)	72%
Expected life, years (iii)	3
Expected forfeiture rate (iv)	10%
Expected dividend yield (v)	0%

- i. Based on the Bank of Canada's published bond yields.
- ii. Based on the volatility of 5 peer companies with similar equity structures.
- iii. Based on contract terms.
- iv. Management's estimate based on past forfeitures.
- v. Based on management's expectations over the next three to five years.

9. Commitments and contingencies

(a) NADECOR

The Company's commitments to NADECOR are described at Note 5.

(b) Rental agreement

The Company and RMMI are lessees in a three year office lease agreement, ending March 2015. Monthly payments of \$16,000 are due through the term of the agreement.

(c) Shares contingently issuable to RMMI

75,000,000 shares are issuable to RMMI contingent upon completion of a feasibility study on the Project or a change in control. The feasibility study required to release these shares to the Company is defined in the agreement as "a comprehensive study of a mineral deposit in which all geological, engineering, legal, operating, economic, social, environmental and other relevant factors are considered to a level of detail typical for a feasibility study of this nature." These shares were valued at \$3,425,408 on January 7, 2011, the date on which the Company was recapitalized.

(d) Other

Due to the nature of the Company's operations, various legal and tax matters are outstanding from time to time. In the opinion of management, there are no matters that could have a material effect on these condensed consolidated interim financial statements which require additional disclosure. The Company is party to several consulting agreements with third parties, but does not have non-cancellable contractual commitments other than the office lease agreement described above.

10. Capital management

The following table summarizes capital under the Company's capital management program:

	June 30, 2012	December 31, 2011
Cash and cash equivalents	\$ 9,325,128	\$ 24,656,885
Restricted cash	250,000	943,697
Warrant liability	-	316,267
Share capital	86,077,399	86,077,399
Share option reserves	8,256,508	6,701,148
Shares to be issued	3,425,408	3,425,408

Approximately \$23,000 and \$423,000 was held in foreign banks in the Netherlands and the Philippines at June 30, 2012, respectively. As of December 31, 2011, approximately \$285,000 and \$244,000 was held in the Netherlands and the Philippines bank accounts, respectively.

The Company has \$250,000 (December 31, 2011 - \$943,697) held by a large banking institution as collateral for lines of credit. The decrease from December 31, 2011 was the result of the transfer of cash held in Philippine bank accounts to KKGCM (Note 6(c)).

The Company's objectives and continued financing of its commitments under its agreements with NADECOR (Note 5) are dependent on the ability to raise funds until mineral production commences. The Company is currently developing plans to address future liquidity and capital management risks.

No funding since inception has been raised through debt issuances. Management strategically times and limits equity issuances in order to limit the cost of capital until a BFS has been completed. Upon completion of a BFS, management intends to raise a significant amount of funds through a combination of debt and equity.

11. Earnings per share ("EPS")

(a) Basic EPS

Basic EPS is computed by dividing net loss for a period by the weighted average number of common shares outstanding during that period.

(b) Diluted EPS

Diluted EPS is computed by dividing net loss for a period by the diluted number of common shares. Diluted common shares include the effects of instruments, such as share options and warrants, which could cause the number of common shares outstanding to increase.

The Company reported net losses for the six months ended June 30, 2012 and 2011; the Company has accordingly presented basic and diluted EPS, which are the same, on a single line in the statements of comprehensive loss. Diluted loss per share did not include the effect of share purchase options and warrants, as they were anti-dilutive.

12. Subsidiaries

Effective June 22, 2012, the Company dissolved St. Augustine Mining, Inc. ("SAMI"), a wholly-owned subsidiary. SAMI conducted limited activity and the dissolution had no effect on the consolidated Financial Statements.

During the three months ended June 30, 2012, MDC Mine Developers (Canada) Inc. ("MDCI"), a British Columbia corporation, was incorporated to facilitate payroll for Canadian resident employees. The following table identifies the subsidiaries of the Company following the incorporation of MDCI:

13. Subsequent events

Subsequent to June 30, 2012, the Company and NADECOR executed an agreement (the "Note Agreement"), whereby the Company loaned to NADECOR \$399,000. The note accrues minimal interest (.01%), is to be used by NADECOR for working capital and legal fees, and includes covenants that limit NADECOR from making significant changes to its debt and business operations. If NADECOR defaults under the conditions of the Note Agreement, interest will be charged at the prime rate. The note will be converted to an advance payment under the \$4 million due under the MOU upon the decision to proceed (Note 5) if certain conditions are met within the next twelve months, otherwise the amount is due in full, including accrued interest, if any.
